Member 4 Name Archit Narayan	20214176	6396784291	archit.20214176@mnnit.ac.in	archit7896

## <UNPLOAD HUB >

### **Technology Stack (Proposed):-**

- Javascript
- React
- Express

### **Features (Proposed):-**

- User Authentication
- Upload post
- Like/Comment

File Upload  
Database Management

### **External libraries/APIs:-**

- Add the list of APIs, Libraries and tools that you plan to use.

### **Some Rules and Clarifications -**

Some of you were confused regarding which tech stacks are allowed for frontend, so read these points carefully - You are allowed to use Bootstrap, MaterializeCSS, MdBootstrap, etc CSS frameworks. The only thing is that you must NOT copy the whole template, instead, you should build your frontend using Components present in these frameworks.

React.js, Angular.js, Vue.js are also allowed.

- Use of CMS (like Joomla, WordPress, etc.) is NOT allowed.
- The abstract submission will start soon, till then, be ready with your team and abstract.
- Use of GitHub is encouraged.
- Code Documentation: It is highly recommended that participants maintain clear and comprehensive documentation for their code, including comments, README files, and usage instructions. This will help reviewers and fellow developers understand the project's structure, functionality, and implementation details.
- Submission Deadline: The deadline for abstract submission will be strictly enforced, and late submissions will not be accepted. Participants should plan and allocate sufficient time to prepare and submit their abstracts before the specified deadline.
- Ethical Conduct: Participants are expected to adhere to ethical standards and conduct themselves professionally throughout the event. Any behavior that is disrespectful, discriminatory, or violates the event's code of conduct will not be tolerated and may result in disqualification or removal from the event.

By following these rules and guidelines, participants can ensure a fair, competitive, and enjoyable experience during the web development event.

**Note: The abstract should be concise, informative, and well-structured.**
